OUR APPROACH

No booking. Desks are automatically allocated on arrival.

- | | |
|-------------------------|--|
| Desk preferences | — set once. Equipment needs, environment, and neighbourhood matched silently every time. |
| Arrival time | — check in and the best available desk is allocated instantly. Earlier arrival, more choice. |
| User history | — desks you've used before score higher, returning you to familiar spaces automatically. |
| No no-shows | — nothing is held if you don't arrive. Capacity stays fluid for everyone. |
